

Saint Barth Commuter Provisions for Dangerous Goods Carried by Passengers or Crew

ARTICLES	Limitations and Conditions of Carriage	Permitted in carry on Baggage	Permitted in Checked Baggage
ALCOHOLIC BEVERAGES			
<p>Apply to alcoholic beverages exceeding 24% but not exceeding 70% alcohol by volume</p> <p><i>For information : beers 1 to 15%, ciders 1 to 18%, wines 8 to 20%, spirits from 15%.</i></p>	<p>When in retail packaging and in receptacles not exceeding 5 L .The total net quantity per person is 5 Liters.</p> <p>Customs exemptions may be more restrictive depending on your country of destination</p>	Yes	Yes
ARTICLES FOR MEDICAL PURPOSES			
<p>Oxygen or air, Gaseous cylinders required for medical use.</p>	PRIOR APPROVAL REQUIRED	Yes	Yes
<p>Portable oxygen concentrator</p> <p>Personal breathing device for medical use powered by lithium batteries.</p>	<p>The cylinder must not exceed 5kg gross weight.</p> <p>The device must be approved for air transport. The oxygen concentrator can be used on board during the flight.</p> <p>*The lithium battery must be carried in the cabin.</p>	Yes	Yes* See restrictions
<p>Liquid oxygen system containing oxygen cylinders in liquid form, for medical purposes.</p>	FORBIDDEN	No	No
<p>Gas cylinders, non flammable, non toxic worm for the operation of mechanical limbs. and spare cylinders.</p>	<p>Spare cylinders should be of similar size if needed to ensure an adequate supply for the duration of the journey.</p>	Yes	Yes
<p>Radioisotopic cardiac pacemakers or other devices, including those powered by lithium batteries implanted into a person or fitted externally</p>		On one's person	
<p>Thermometer medical or clinical containing mercury</p>	<p>1 per person for personal use. Must be placed in its protective case.</p>	No	Yes
BAGGAGE WITH LITHIUM BATTERIES			
<p>Baggages with installed removable batteries. Luggage equipped with a battery usable to charge personal portable devices or to operate an integrated electronic device (luggage scale function, GPS)</p>	<p>*Batteries must be removed and must be carried in the cabin.</p>	Yes	Yes* See restrictions
<p>Baggages with installed non-removable batteries.</p>	FORBIDDEN	No	No
<p>Motorized luggage, Suitcase scooter.</p>	FORBIDDEN	No	No

Saint Barth Commuter Provisions for Dangerous Goods Carried by Passengers or Crew

ARTICLES	Limitations and Conditions of Carriage	Permitted in carry on Baggage	Permitted in Checked Baggage
DEVICES WITH SPILLABLE BATTERY			
Portable devices operating with spillable batteries called "dry batteries" or "liquid gel batteries"	FORBIDDEN	No	No
ELECTRIC MOTORIZED LEISURE VEHICLES			
Electric bike Electric bicycles or bicycles for leisure powered by lithium batteries.			
Motorized leisure devices Operating with lithium batteries such as Electric scooters, hoverboards, monowheels, gyropods, waveboards, motorized suitcases and any other multi-wheeled devices	SAINT BARTH COMMUTER RESTRICTION	No	No
ELECTRONIC CIGARETTES AND SPARE BATTERY			
Electronic cigarettes and other personal vaporizers powered by a lithium battery: e-cigarettes, e-cigars, e-pipes, e-shisha, electronic nicotine delivery systems, etc.	The use and charging of electronic cigarettes and other vaporizers is not permitted on board.	Yes	No
Spare batteries for electronic cigarettes and other personal vaporizers	Spare batteries should be protected and placed in the original packaging, plastic bag, or individual protective envelope. Otherwise, the terminals can be insulated with non-conductive adhesive tape.		
ENGINES / SPARE PARTS			
Electric motor operating on electricity		Yes	Yes
Combustion or propulsion engine operating with flammable liquids or gases, transported separately or integrated into a machine or other device		No	No
Spare parts for vehicles or other motorized devices likely to contain dangerous chemicals : shock absorbers of all types, batteries of all types for vehicles, airbags		No	No

Saint Barth Commuter Provisions for Dangerous Goods Carried by Passengers or Crew

ARTICLES	Limitations and Conditions of Carriage	Permitted in carry on Baggage	Permitted in Checked Baggage
EQUIPMENT POWERED BY FUEL CELLS			
Electronic devices powered by fuel cells such as cameras, cell phones, laptops and camcorders.	The fuel cells must be of a type that will not charge the batteries when the portable electronic device is not in use and be marked "approved for carriage in aircraft cabin only".	Yes	No
EXTERNAL BATTERY AND FUEL CELLS			
External batteries Power Bank, powerpack, battery pack....	External batteries are considered and handled as spare lithium batteries	Yes	No
Fuel cells Powering portable electronic devices such as camera, cellular phone, laptop computer ect...	The maximum amount of fuel should not exceed 200ml for liquids or 200g for solids For liquefied gases: 120ml for fuel cells or non-metallic fuel cell cartridges, or 200ml for fuel cells or metallic fuel cell cartridges, for hydrogen in metal hydride, fuel cell cartridges must have a water capacity of 120 ml or less.	Yes	No
Fuel cell cartridges, spare Used to recharge fuel cells	Limited to 2 spare cartridges. Refilling fuel cells on board an aircraft is not allowed.	Yes	Yes
HEAT PRODUCING ARTICLES			
PRIOR APPROVAL REQUIRED			
Heat producing articles such as underwater torches, soldering irons, that could generate an extreme heat source	The heat producing component and the battery are isolated from each other by removing the heat producing component. The batteries must be removed and protected against short circuits. The batteries must be carried in the cabin.	Yes	Yes
HOUSEHOLD, MAINTENANCE AND DIY PRODUCTS			
Products such as paints, lacquers, varnishes, thinners, acetones, solvents, strippers, pesticides, rat poison, liquid or solid fuels, swimming pool maintenance products, etc. ... whatever their type of packaging (aerosol, pot, can, bomb)		No	No

Saint Barth Commuter Provisions for Dangerous Goods Carried by Passengers or Crew

ARTICLES	Limitations and Conditions of Carriage	Permitted in carry on Baggage	Permitted in Checked Baggage
LITHIUM BATTERIES, SPARE/LOOSE			
<p>Spare/Loose lithium battery rating less than 100Wh Lithium-ion batteries not exceeding 100 Wh or lithium-metal batteries not exceeding 2 g. for portable electronic devices (watches, camcorders, cameras, cell phones, laptops, tablets, portable electronic medical devices, etc.</p>	<p>Limited to a maximum of 20 spare batteries. They must be individually protected to prevent short circuits. Note : The carriage of more than 20 batteries must be approved by Saint Barth Commuter</p>	Yes	No
<p>Spare /Loose lithium battery rating more than 100Wh but less than 160Wh. Spare lithium ion batteries rating more than 100 Wh, but not exceeding 160 Wh and for portable electronic devices (electrical tools, video cameras, drones, etc.) including medical devices Spare lithium metal batteries exceeding 2g but not exceeding 8g are permitted for portable medical electronic devices only</p>	<p style="text-align: center;">PRIOR APPROVAL REQUIRED</p> <p>Limited to a maximum of 2 spare batteries. They must be individually protected to prevent short circuits.</p>	Yes	No
<p>Spare /Loose lithium battery rating more than 160Wh Spare lithium ion batteries rating more than 160Wh for electric vehicles, large electrical tools, electric cars, etc.</p>	FORBIDDEN	No	No
MATCHES, LIGHTERS, LIGHTER FUEL			
<p>Safety matches or small lighter Classic matches and liquefied gas lighters.</p>	<p>1 small packet 1 small lighter for personal use</p>	On one's person	No
<p>« Strike anywhere » chemical matches and other fuel lighters "blue flame" or "cigar lighters containing unabsorbed flammable liquid.</p>	FORBIDDEN.	No	No
<p>Lighter fuel and replacement cartridges</p>	FORBIDDEN	No	No
MOBILITY AIDS			
<p>Battery-powered wheelchairs or other similar mobility devices equipped with removable lithium ion batteries</p>	<p style="text-align: center;">PRIOR APPROVAL REQUIRED</p> <p>Note: only retractable aids (foldable) can be transported, . The battery must be carried in the cabin.</p>	Yes	No

Saint Barth Commuter Provisions for Dangerous Goods Carried by Passengers or Crew

ARTICLES	Limitations and Conditions of Carriage	Permitted in carry on Baggage	Permitted in Checked Baggage
PACKAGING FOR TRANSPORT			
Containers that have contained flammable liquid fuel Bottles for camping stoves, Jerrycan or other containers. Camping Stoves	SAINT BARTH COMMUTER RESTRICTION	No	No
Insulated packagings or cryogenic receptacles containing refrigerated liquid nitrogen.	Fully absorbed in porous material containing only non-dangerous goods. The maximum gross weight of the packaging must not exceed 10 kg.	Yes	Yes
	PRIOR APPROVAL REQUIRED		
Packaging containing Dry ice (carbon dioxide, solid) used to pack perishable not subject to the Dangerous Goods Regulations.	In quantities not exceeding 2.5 kg per person when in checked baggage or in the cabin. The checked baggage must be marked "Dry ice" or "Carbon dioxide solid." with the net weight of dry ice..The packaging must permits the release of carbon dioxide.	Yes	Yes
Packaging containing small quantities of flammable liquid for the transport of non-infectious specimen. Such as birds, amphibians, reptiles, fish, insects or other invertebrates.	SAINT BARTH COMMUTER RESTRICTION	No	No
PORTABLE ELECTRONIC DEVICES AND MEDICAL DEVICES POWERED BY LITHIUM BATTERIES – PED-			
Powered less than 100Wh <ul style="list-style-type: none"> • Consumer electronic devices such as watch, camera, mobile phone, tablet, computer, small drone, etc..... And • Medical devices such as portable oxygen concentrator containing lithium ion cells or batteries not exceeding 100Wh or lithium metal batteries not exceeding 2 g 	Limited to a maximum of 15 PED per person for personal use. *Devices in hold baggage must be completely switched off and protected from damage.	Yes	Yes* <i>See restrictions</i>
Powered more than 100Wh without exceeding 160Wh <ul style="list-style-type: none"> • Portable electronic devices containing lithium ion batteries more than 100Wh but not exceeding 160Wh such as electrical tools, video camera, drones, ect And • Portable medical electronic devices containing lithium ion batteries more than 100Wh but not exceeding 160Wh or lithium metal batteries greater than 2g but not exceeding 8g: 	PRIOR APPROVAL REQUIRED *Devices in hold baggage must be completely switched off and protected from damage.	Yes	Yes* <i>See restrictions</i>

Saint Barth Commuter Provisions for Dangerous Goods Carried by Passengers or Crew

ARTICLES	Limitations and Conditions of Carriage	Permitted in carry on Baggage	Permitted in Checked Baggage
<p>Portable electronic devices Powered more than 160Wh Electronic devices and other items powered by lithium ion batteries more than 160Wh or lithium metal batteries more than 2g such as electric travel vehicle, large professional tools, professional drone, etc.</p>	FORBIDDEN	No	No
PROFESSIONAL DEVICES			
<p>Mercury filled barometer or thermometer carried by a representative of the government weather bureau or similar official agency.</p>	SAINT BARTH COMMUTER RESTRICTION	No	No
<p>Permeation devices .(Air quality calibration device)</p>	SAINT BARTH COMMUTER RESTRICTION	No	No
PYROTECHNIC ARTICLES			
<p>Dynamite, powder and plastic explosives, detonators and primers, Mines and other military explosive devices, Explosive or incendiary devices, grenades, bombs or smoke cartridges, fireworks, flares in any form, ammunition, firecrackers, imitations of explosives (non-exhaustive list)</p>	FORBIDDEN	No	No
SAFETY DEVICE AND REFILL GAS CARTRIDGES			
<p>Safety life jacket/vest and other self-inflating device operating with small non-flammable gas cartridges containing carbon dioxide or any other suitable gas integrated into a self-inflating device.</p>	PRIOR APPROVAL REQUIRED 1 individual safety device per person must be packaged in such a way that it cannot be accidentally activated Maximum of 2 small cartridges fitted in the device; and 2 spare small cartridges .	Yes	Yes
<p>Security-type attaché case, cash boxes, cash bag incorporating dangerous items such as lithium batteries or pyrotechnic material</p>	FORBIDDEN	No	No
<p>Spare gas cartridge, small bottles of non-flammable, non-toxic gases such as carbon dioxide (CO₂), or another gas to operate small equipment: self-inflating device, culinary siphon, soda machine, compressed air gun, etc.</p>	PRIOR APPROVAL REQUIRED 4 small cartridges maximum per person. The water capacity of each cartridge must not exceed 50 ml / 28g. Nitrous oxide (N ₂ O) cartridges are prohibited,	Yes	Yes

Saint Barth Commuter Provisions for Dangerous Goods Carried by Passengers or Crew

ARTICLES	Limitations and Conditions of Carriage	Permitted in carry on Baggage	Permitted in Checked Baggage
TOILETRY AND MEDICINE ARTICLES			
<p>Non-radioactive medicinal and toiletry articles including aerosols such as hair sprays, perfumes, colognes and medicines containing alcohol.</p> <p>Non-flammable, non toxic aerosols for sporting or home use.</p>	<p>The net quantity of each single article must not exceed 0.5 kg or 0.5 L.</p> <p>The total net quantity of all articles carried must not exceed 2 kg or 2 L.</p> <p>Aerosol release valves must be protected by a cap or other suitable means to prevent inadvertent release of the contents.</p>	Yes	Yes
<p>Hair curlers containing hydrocarbon gas</p>	<p>Limited to 1 per passenger. The safety cover must be securely fitted over the heating element. Must not be used at any time on board the aircraft. Gas refills not permitted.</p>	Yes	Yes
WEAPONS AND AMMUNITION, DISABLING DEVICES			
<p>Sporting firearms and ammunition.</p>	<p>SAINT BARTH COMMUTER RESTRICTION</p>	No	No
<p>Electro shock weapons (e.g. Tasers) containing dangerous goods such as explosives, compressed gases, lithium batteries.</p>	<p>FORBIDDEN</p>	No	No
<p>Sporting weapons that do not fall under the category of firearms.</p>	<p>Before acceptance such article must be checked to confirm that they do not contain prohibited or regulated dangerous goods.</p>	No	Yes
<p>Disabling devices containing an irritating or incapacitating substance such as mace, pepper spray ect.</p>	<p>FORBIDDEN</p>	No	No
